MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT : Comments on the Draft Policy Guide
Governing Public Appearances and
Open Publication by CIA Employees

1. I recommend that this draft Policy Guide be approved and published as soon as possible. It does represent a significant change from the regulation now on the books which, in effect, discourages all outside professional activity.

2. Although I find this Policy Guide to be permissive in its tone, I do not find the note of positive encouragement which I had hoped would characterize a Policy Guide on this subject. The subparagraph b, under the Policy heading on page 2, is the only paragraph in the document, it seems to me, which provides a positive encouragement to employees to participate in the activities of scientific and professional associations. This paragraph in itself is a good one, but its impact is very largely mitigated by the volume of language of a procedural, responsibility-fixing, and generally restraining tone which surrounds it. Nevertheless, I suspect it is best to get this regulation on the books with the thought that further refinements in it and liberalization of it may be possible in the future as we gain more experience in the application of its provisions.
